

Consults/Hour Across 28 ER Locations

The average number of consultations/hour is calculated by taking the total number of consultations that occurred in an hour since a certain date and dividing that number by the number of days in that interval. Unfortunately, we are only able to examine hospitals that operate on EzyVet for the time being. They are labeled by hospital name, workday ID, and the range of dates examined.

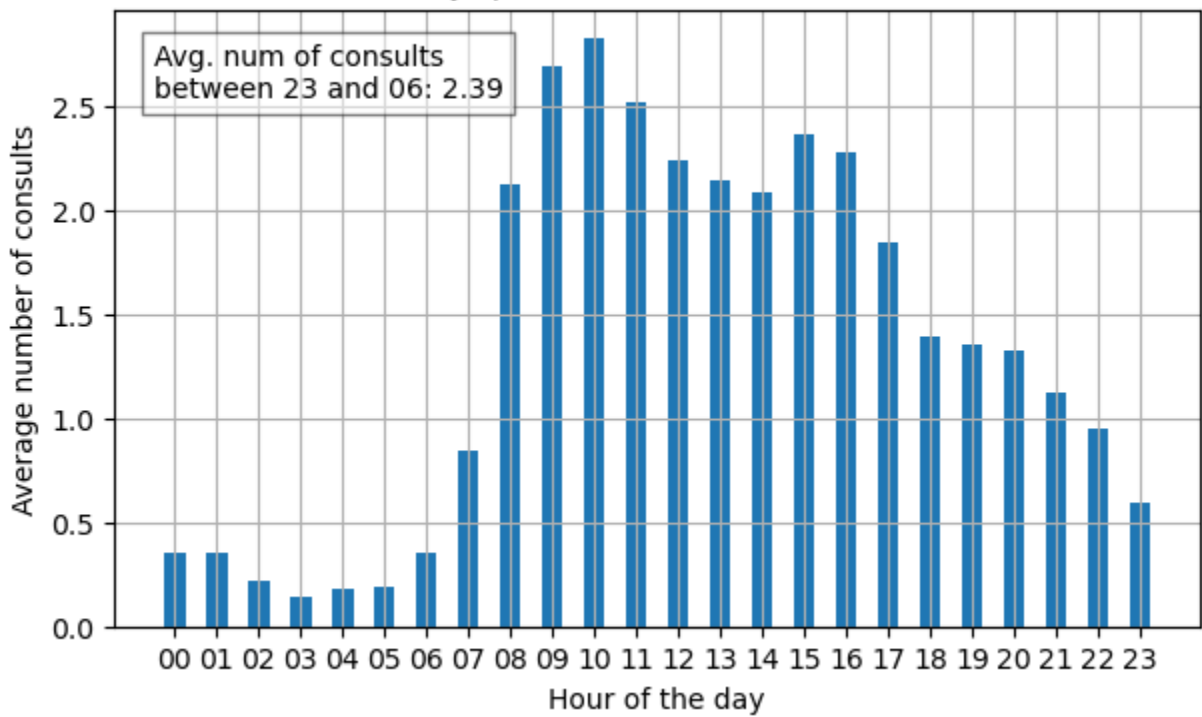

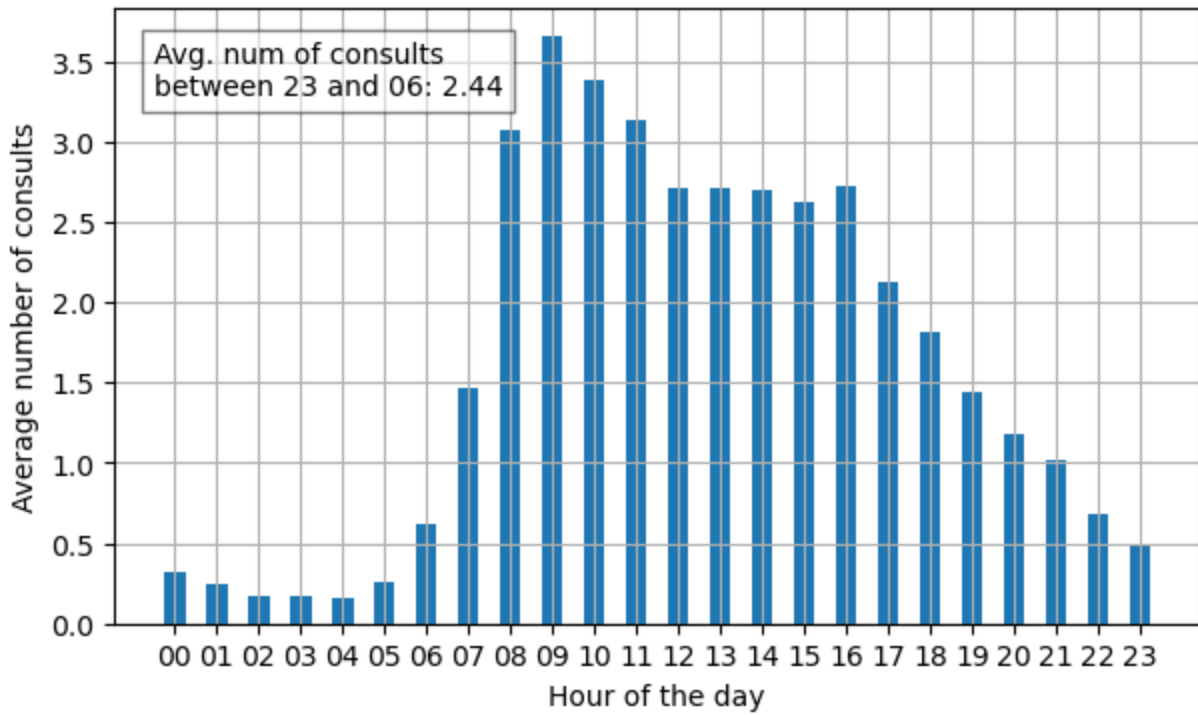

Crossroads Animal Emergency & Referral Center (Norwalk), CAENORWALK, 2023-01-01 to 2023-06-20
